NOVUS TSS column 445 with base

The Tetra Support System is the adaptable innovation for the modern workplace and provides you with a wide range of individually tailored mounting options. Extremely versatile, this system comes in a quality that is second to none. The 445 mm long aluminium column (diameter of 51 mm) serves as a support column with a solid base and rubber feet to protect the desk surface. For reasons of stability, the TSS 445 SF is only rated for one TSS support carriage. Two cable clips are included as a practical aid for routing cables.

Base. Solid or filigree bases are available for selected products instead of the universal clamp.

When used conventional.

This machine bears the GS approval of product safety.

Available in silver/ anthracite
